Git Bootcamp

Computer Student Society

Nate Dolny

What is Git?

- One of the many popular version control systems available

- Git is a tool used to manage code but can also be applied to any other type of document (**does not have to be code**)

Version Control

Records changes a person made to a document overtime. It can be used by one person or multiple people.

When should you use Git?

- **ALWAYS!!**
- Git is your best friend when it comes to any project big or small

Setting up Git

Create a Profile

Set Profile Name
- git config –global user.name "Peter Parker"

Set Profile Email
- git config –global user.name "Parker.P@midtown.net"

Set Default Editor
- git config –global editor="vim"

View our configuration (Optional)
- git config –global list

PRO TIP
Git allows for multiple profiles, so you could have a personal and school profile.
